Dear Pot Spring Parents, Staff and Students:

Based on the results of the 2023-2024 Maryland Report Card, The Maryland State Department of Education identified our school as an Additional Targeted Support and Improvement (ATSI) school. Public schools in Maryland receive this designation when they have one or more low performing student groups based on performance, achievement and growth on the Math, Science, English Language Arts state assessments; progress in English language proficiency; and indicators of school quality and student success (including measures of chronic absenteeism and a school survey). The MD School Report Card provides a detailed overview of individual indicators of school performance.

What Does This Mean for Our School?

As an ATSI school, we receive more rigorous intervention and support from the school system. We develop a targeted support and improvement plan in collaboration with staff and parents/guardians that specifically addresses how our school will improve student achievement. BCPS monitors our progress in several critical areas. The success and well-being of our students is our top priority, and we have highly dedicated staff who are committed to meeting the needs of all students. We look forward to partnering with you throughout the process.

Thank you for your continued support of Pot Spring Elementary. Do not hesitate to contact me should you have any questions or concerns.

In partnership,

Jane Martin
