Summer Painting & Drawing 3/4 Work

Summer work is designed to keep you making art! Keep observing and experimenting with materials and method. Make work that you enjoy that focuses on a direction you would like to explore. This would be a good time to work in series if you find something that sparks interest. Subject matter is up to you, but make work that follows these guidelines:

**Media: Make each of the following**

1. Large Scale Charcoal Drawing: 20x30 inches or larger
2. Painting: Oil paint, Acrylic or guache 18x24 or larger
3. Mixed Media: Experiment with combined painting and drawing techniques and different surfaces
4. Digital Painting: 300dpi, 11x17 format in Adobe Photoshop or similar

**Requirements:**

- Work must be from observation. Continue building your skill by careful observation. You may combine observed elements but change the scale or location to add interest.
- All work should include a strong composition with interesting use of space. Think about the balance of negative space and what your environment will be.
- Evidence of light source must be present in your work.
- Explore a narrative or theme.

There will be a summer works art show when we return to school as well as a critique. Looking forward to seeing what you make!
